Filtering

Optional Features

Configure

Microsoft Entra sign-in configuration

To sign-in to Azure with the same credentials as your on-premises directory, a matching Microsoft Entra ID Domain is required. The following table lists the UPN suffixes for your on-premises environment and the status of the associated Microsoft Entra Domain. ?

Active Directory UPN Suffix	Microsoft Entra ID Domain
test.local	Not Added ?
elansary.site	Verified

Select the on-premises attribute to use as the Microsoft Entra ID username

USER PRINCIPAL NAME ?

userPrincipalName

☒ Continue without matching all UPN suffixes to verified domains

Users will not be able to sign-in to Microsoft Entra ID with on-premises credentials if the UPN suffix does not match a verified domain. [Learn more](#)

Azure AD Connect

Uniquely identifying your users

Select how users should be identified in your on-premises directories. ?

- ☒ Users are represented only once across all directories.
- ☐ User identities exist across multiple directories. Match using:
- ☒ Mail attribute
 - ☐ ObjectSID and msExchMasterAccountSID/msRTCSIP-OriginatorSID attributes
 - ☐ SAMAccountName and MailNickName attributes
 - ☐ A specific attribute

Select how users should be identified with Microsoft Entra ID. ?

- ☒ Let Azure manage the source anchor
- ☐ Choose a specific attribute

Azure will write back unique source anchors to your on-premises directory if mS-DS-ConsistencyGuid is currently unused by your organization. [Learn more](#)

Activate Windows
Go to Settings to activate Windows.

The screenshot shows a window titled "Object Details" with a close button (X) in the top right corner. Below the title bar, it states "Total objects retrieved: 3". A table follows with one column labeled "Distinguished Name". The table contains three rows of distinguished names:

Distinguished Name
OU=SALES,DC=test,DC=local
CN=Ahed Nabil,OU=SALES,DC=test,DC=local
CN=Salma Mohamed,OU=SALES,DC=test,DC=local

The bottom of the window features three buttons: "Properties...", "Refresh", and "Close".

Step Type:	Full Import (Stage Only)	Partition:	DC=test,DC=local	
Start Time:	9/5/2026 3:18:17 PM	End Time:	9/5/2026 3:18:17 PM	Status: success

Microsoft Entra Provisioning Agent Configuration

Welcome

Connect Microsoft Entra ID

Configure Service Account

Connect Active Directory

Confirm

Welcome to the Microsoft Entra provisioning agent configuration wizard

The Microsoft Entra provisioning agent supports the following provisioning scenarios:

- Provision identities from Active Directory to Microsoft Entra ID.
- Enable password writeback from Microsoft Entra ID for identities synchronized from Active Directory.
- Provision cloud security groups from Microsoft Entra ID to Active Directory.
- Provision identities from HR Systems (WorkDay and SuccessFactors) to Active Directory.
- Provision identities from HR systems to Active Directory using API-driven provisioning.
- Provision identities from Microsoft Entra ID to on-premises applications (SQL, LDAP, PowerShell, etc.).

Select the checkbox below for Entra Cloud Sync, HR-driven or API-driven provisioning scenarios

☒ Connect to your Active Directory domain(s)

Next

Microsoft Entra Provisioning Agent Package Setup

Microsoft Entra Provisioning Agent Package

Setup Successful

Follow the wizard to configure the Microsoft Entra Provisioning Agent. Once that has been done, configure provisioning in the Microsoft Entra ID portal.

Activity

Troubleshooting + Support

Get started with license management

We are making it easier than ever to manage all your licenses. You can easily:

- Get a trial or purchase license
- See your purchased licenses and see the number of assigned licenses and the product expiry
- Manage licenses to a user or group
- View and delete your self-sign up subscriptions
- See all Microsoft Entra ID features available based on your licenses level

Users

Groups

Self-service sign up products

Manage access to Microsoft paid services as Office 365, Enterprise Mobility + Security and other similar products

Activate

Browse available plans and features

Automatically ensure that the right people have the right access to the right apps and services at the right time. Identity governance increases employee productivity and helps meet compliance and regulatory requirements. Microsoft Entra ID Governance helps reduce risk arising from access abuse or excessive permissions, enables smart access decisions based on machine learning, and quickly enforces access changes for new hires and employee departures by using automated lifecycle workflows.

More information

Free trial

MICROSOFT ENTRA ID P2

With Microsoft Entra ID P2 you can gain access to advanced security features, richer reports and rule based assignments to applications. Your end users will benefit from self-service capabilities and customized branding.

More information

Free trial

Microsoft Entra ID P2 enhances your directory with additional features that include multifactor authentication, policy driven management and end-user self-service.

Learn more about features

The trial includes 100 licenses and will be active for 30 days beginning on the activation date. If you wish to upgrade to a paid version, you will need to purchase Microsoft Entra ID P2.

Learn more about pricing

Microsoft Entra ID P2 is licensed separately from Azure Services. By confirming this activation you agree to the Microsoft Online Subscription Agreement and the Privacy Statement.

TERMS

By clicking "Create", I (a) agree to the legal terms and privacy statement(s) associated with the Marketplace offering(s) listed above; (b) authorize Microsoft to bill my current payment method for the fees associated with the offering(s), with the same billing frequency as my Azure subscription; and (c) agree that Microsoft may share my contact, usage and transactional information with the provider(s) of the offering(s) for support, billing and other transactional activities. Microsoft does not provide rights for third-party offerings. See the [Azure Marketplace Terms](#) for additional details.

You have set RDP port(s) open to the internet. This is only recommended for testing. If you want to change this setting, go back to Basics tab.

Estimated monthly costs

Costs indicated here are estimates only. Pricing may vary depending on your Microsoft agreement, date of purchase, subscription type, usage costs, licensing and currency exchange rates. Total costs may include other resource costs, licensing and subscription implications. This feature may have limited or restricted functionality, but is made available on a preview basis for evaluation and feedback.
